

Ideal for Masculinities Workshops

Published December 2001

Getnet has published a cutting-edge guidebook for trainers in the masculinities field.

The 72-page book has a strong practical orientation, and draws on the work of international and local theorists and practitioners. It assists trainers in putting together workshops on emancipatory masculinities. Selected readings, case studies and pathways for change promote understanding of gender power relations and give insight into how different masculinities (and femininities) come about.

Call Elizabeth Schutter at Getnet 021 697 5355 to order your copy (R100,00) or complete the order form below.
